DEVELOPMENTAL ASSET- EMPOWERMENT

When children feel safe and respected, they in turn feel valued and valuable. The children are encouraged to be active participants in the daily running of our program. Upon arrival, we have an open discussion where the children can share information about the school day. Next a child is chosen to pick a group game which is played in the gym. Group game is followed by snack served by children chosen at random. A child is also chosen at this time to read to the group a book they choose from our library. After snack is finished we move to the large program room where the children select an activity to do at one of the centers(board games, art/crafts, block building,dramatic play, and homework or reading). We acknowledged the help the children provide.
